

MEANINGFUL WELLNESS PARTNERS

AUGUST 2021

E.C.O. Canadian Organic

GITPO Spirit Lodge

University of New Brunswick

Natoaganeg First Nations

WELLNESS PRINCIPLE 1

Thousands of people have used cannabis to help them reduce and replace opioid medications.

Patients from all walks of life, including those with chronic pain, PTSD (post- traumatic stress disorder), addiction, and non-medical use of opioids.

Cannabis can be made available through a medical prescription.

WELLNESS PRINCIPLE 2

ADVANTAGES OF ADDING PRESCRIBED MEDICAL USE OF CANNABIS

In dealing with opioid addiction, cannabis can be safer than other harm reduction options like methadone and suboxone. It does not have the risk of a fatal overdose and has a lower risk of dependence and problematic use than other psychoactive substances.

Cannabis can be used in combination with methadone or Suboxone to enhance the benefits and support taper of these drugs

In addition to reducing pain, cannabis conveys holistic benefits, such as improving sleep, reducing anxiety, relaxing muscles, giving perspective on life's changes, etc.

WELLNESS PRINCIPLE 2

ADVANTAGES OF ADDING PRESCRIBED MEDICAL USE OF CANNABIS

Cannabis relieves the symptoms of opioid withdrawal.

In dealing with opioid addiction, cannabis can be safer than other harm reduction options like methadone and Suboxone. It does not have the risk of a fatal overdose and has a lower risk of dependence and problematic use than other psychoactive substances. Cannabis can be used in combination with methadone or Suboxone to enhance the benefits and support taper of these drugs.

WELLNESS PRINCIPLE 3

BASIC PRINCIPLES OF MEDICAL USE

Initially prescribe a low dose of cannabis with every dose of opioids.

For longer acting effects, oral delivery, such as E.C.O. Quick Strips absorbed through the blood vessel in the mouth, is optimal.

Use cannabis to promote restorative sleep.

Use cannabis to enhance the enjoyment and benefits of therapeutic activities (exercise, meditation, prayer, counseling, journaling, etc.)

ROGER'S VISION

For over 35 years, Chief Roger has a proven record for successfully advancing the principles of wellness with a focus on alcohol and drug education.

He believes in a sacred connection among people, the Earth, and everything above it, upon it, and within it.

Indigenous health practices and beliefs, like Indigenous peoples themselves, are diverse. A wellness center must be adaptable to provide services that are relevant to the community.

GITPO SPIRIT LODGE

Our holistic wellness center is focused on the well being of men and boys in the Eel Ground broader community.

In recognizing the advancement of the medical therapeutic use of cannabis, Chief Roger has developed a model wellness center that can be replicated in First Nation communities across the territories.

Best practices for Indigenous wellness involve a range of services from mainstream health care to traditional practices and medicines, all under community leadership and control

GITPO SPIRIT LODGE

GITPO SPIRIT LODGE'S CONTRIBUTION

Providing

Providing a safe environment supporting traditional healing practices for community members aimed at promoting mental, physical, and spiritual wellness.

Supporting

Supporting the methodology to introduce cannabis as a medical therapeutic alternative to widen the therapeutic windows of taking cannabis with other harm reduction options like methadone and Suboxone.

Supporting

Advancing medicinal cannabis in combination with methadone or Suboxone to enhance the benefits and support a taper of these drugs and improve opioid addiction treatment outcomes

E.C.O. is a New Brunswick locally-owned and operated Health Canada Licensed Producer/ Seller of the highest quality, lab-tested, organic medical cannabis products.

E.C.O. sells quality medical products in the provincial, national, and international markets through strategic partnerships.

E.C.O. is focused on supporting First Nation communities by promoting wellness and harm reduction by developing health and wellness services.

ECO CANADIAN ORGANIC MISSION

Our mission at E.C.O. is to provide First Nation communities with safe access to the highest quality, lab tested organic medical cannabis.

E.C.O.'S VALUES

We believe in flower as medicine. Nature's own recipe is incredibly complex. We embrace and respect the natural healing powers of the cannabis flower.

We promise to provide our customers with naturally-grown organic cannabis that has been grown in a way that aligns with all of our core tenets and beliefs.

E.C.O. is engaged with a UNB research project utilizing cannabis as opposed to methadone as an alternative to opioid therapy thereby providing academic structure to our competitive advantage.

DENISE HANNAY

E.C.O. CANADIAN ORGANIC, CEO & CO-FOUNDER

- E.C.O. will ensure a consultation at GITPO Wellness Centre for every patient participating in this project.
- E.C.O. is committed to providing education, data and science while providing the best possible care for patients.
- E.C.O. is committed to delivering a health care experience that will provide knowledge and safe access to medical cannabis.
- Combining patient education sessions, personalized care plans, and ongoing support, E.C.O. will deliver services that build an environment of based education, knowledge and support.
- Patients will participate in a comprehensive education session with one of the prescribing health care practitioners prior to their appointment. Prospective patients will learn the history of cannabis, its medical benefits, as well as dosing schedules and consumption methods.

LOCATION

OUR BUILDING

“RIVER OF FIRE”

E.C.O. FOCUS ON COMMUNITY EDUCATION

- E.C.O. recognizes the importance of patient education, but also values the need for the entire community to better know how cannabis can be a part of a healthy lifestyle
- Dr. Av Singh and Randy Flemming are committed to working with health care professionals, Band Council, and community members to provide comfort and knowledge about cannabis as medicine. Whether learning more about the endocannabinoid system or techniques for growing at home, a high level of information is available.

Access to expertise in Public and Mental Health, as well as providing data collection and management.

Access to leverageable academic grants to carry out scoping project and subsequent fundable research.

NATOAGANEGB FIRST NATION

CHIEF GEORGE GINNISH

NATOAGANEG FIRST NATION PROPOSED CONTRIBUTION

Host	Host the Spirit Lodge within its community.
Support	Support the pilot project undertaken by the Parties through the Spirit Lodge.
Support	Support Roger's Vision

A wide-angle photograph of a coastal landscape. In the foreground, a light-colored wooden boardwalk curves from the bottom center towards the horizon. The ground is covered with tall, green grasses and patches of purple heather. In the background, there are numerous sand dunes with dark green vegetation growing on them. The sky is overcast with grey clouds.
